

Geomatic Point Surveys Ltd & Sands Surveys 2000 Ltd. were incorporated in the Regional Municipality of Wood Buffalo. We are privately held, Local Corporations that are dedicated to providing high quality, dependable and innovative surveys and construction services to the region, with an emphasis on servicing the heavy crude oil industry in Northeastern Alberta.

Being based in the Regional Municipality of Wood Buffalo, Geomatic Point Surveys Ltd & Sands Surveys 2000 Ltd recognizes the importance of working with local Aboriginal businesses and individuals. It is our firm commitment to afford Aboriginal businesses and individuals with contract and employment opportunities in all of our undertakings.

Inclusion through employment is implemented as a matter of policy by actively recruiting through Aboriginal business organizations, and by offering Aboriginal applicants general training and apprenticeships in our work projects. Geomatic Point Surveys Ltd & Sands Surveys 2000 Ltd are both committed to ensuring the highest standards of workmanship and health and safety for all of its Aboriginal workers, by offering on-site safety and job-specific training.

Inclusion through partnership is implemented as a matter of policy by liaising through established Aboriginal business organizations such as NAABA (Northeastern Alberta Aboriginal Business Association) and through local band offices. Geomatic Point Surveys & Sands Surveys 2000 Ltd recognizes the mutual benefit achieved in working with its Aboriginal partners, joint ventures, subcontractors, and material suppliers.
